Housekeeping Items List with Pictures

A hotel housekeeping items list has seven groups: cleaning tools, cleaning chemicals, cloths and dusters, carts and trolleys, bins and liners, gloves and safety items, and washroom and paper supplies. Room attendants also carry the guest-room amenities they restock after every stay. Tick what you need and send us the list.

Cleaning chemicals: R1 to R9 explained

In hotel housekeeping, R1 to R9 are the codes of the TASKI room-care range from Diversey, our partner brand for cleaning chemicals. Each code is a cleaner for one job, so staff can pick the right bottle quickly.

Code	Product	Where it is used
TASKI R1	Bathroom Cleaner	Daily cleaning of bathroom surfaces
TASKI R2	Hard Surface Cleaner, Concentrate	Hard surfaces such as tables, doors and walls
TASKI R3	Glass Cleaner	Glass, mirrors and windows
TASKI R4	Furniture Maintainer	Wooden furniture
TASKI R5	Air Freshener	Rooms and corridors
TASKI R6	Toilet Bowl Cleaner	Toilet bowls
TASKI R7	Floor Cleaner, Concentrate	Floors
TASKI R9	Bathroom Cleaner, Concentrate	Bathrooms

Concentrates are diluted before use: follow the dilution on the label. For kitchens, the SUMA range covers stainless steel polish, all purpose cleaning, descaling and oven and grill cleaning. The Crew range offers ready-to-use room, bathroom, glass and floor cleaners.

What goes on a housekeeping cart

A well-stocked cart saves trips back to the store. A typical room attendant's cart carries:

Cleaning

- ☐ Bathroom, glass, toilet bowl and floor cleaners (TASKI R1, R3, R6 and R7) in labelled spray bottles
- ☐ Microfibre and glass cloths, a dusting cloth and a scrubber
- ☐ A WC brush, a hand wiper and a caddy basket
- ☐ Rubber or nitrile gloves and a caution board
- ☐ Garbage bags and bin liners

Guest room restock

- ☐ Toiletries and guest amenity kits: soap, liquids, dental kits, combs, shower caps and the other kits.
- ☐ Tea, coffee and sugar sachets
- ☐ Slippers, laundry bags and sanitary bags
- ☐ Scribbling pads, pens and WC bands
- ☐ Toilet rolls, box tissue and hand wash refills

Housekeeping items for hospitals, offices and institutions

Hospitals, offices and institutions use the same groups, with extra attention to waste handling and hygiene:

- ☐ Hazardous Waste Bin: for segregating waste.
- ☐ Nitrile and latex gloves
- ☐ Disinfectant floor cleaner, hand wash and hand sanitizer
- ☐ Patient Admission Kit: for hospital admissions.
